upon the conclusion of the tariff discussion in the House. When Mr. Davis one of high privilege, nothing should stand in the way of taking up the report as soon as the tariff bill is finished.

## Will Wait on Tariff.

Representative Underwood and other leaders of the House, including Representative Dav's and Representative Covington of Maryland, a member of the committee, after consultation today agreed that the tariff bill probably would be out of the way within a week after general debate stops. It was considered that this would be a more dignified procedure than to stop United the tariff bill and have the case argued on the floor of the House, although the gravity of the situation and the high privilege of the resolution would pernit this to be done at any time. The committee in its report gives four

principal findings, which are as follows: That Representative Thetus W. Sims while on his way from his residence in the city of Washington to the Post Office Department on official business. Friday ing, April 18, 1913, was accoste in Farragut Square in the city of Washgton by Charles C. Glover. who, after pplying certain epithets, assaulted him by striking him in the face. That the said Charles C. Glover committed the assault upon Representtative Sims because of the statement made by Representative Sims in debate on the floor of the House of Representatives at several times during the session of the House in the Sixty-second Congress.

# Breach of Privilege.

"Second, an assault upon a member of painted in the national colors. the House of Representatives for words spoken in debate is a breach of its privfleges and a contempt of the House. "Third, such an assault when commitspoken in debate constitutes a contempt although the words may have been spok-

has power under the authority of the onstitution to punish as a contempt as is involved in the assault upon Representative Sims by the said C. C. Glover." Interspersed throughout the report are he opinions in the various cases which have occurred in the past and which have a bearing upon the present instance. The members of the committee making the report are Representatives Davis, of Iowa and Crisp of Georgia, and it is ooked upon by the House as a conservaresolution and recommendation were reached after five days of almost constant study of the law and precedents.

The appointment of J. Wilmer Latimer as judge of the Juvenile Court, to succeed Judge William H. De Lacy, has been recommended to President Wilson by Acorney General McReynolds, and it was earned today on very high authority that the President will in all probability approve the selection.

Attorney General McReynolds has talked with the President about the appointment, it is understood, and the nomination will likely be sent to the Senate for confirmation within a few days. Owing to the pressure upon the President's time by the tariff and other pe trouge matters he has not had opporunity to prepare himself for an absolutely final decision as to the Juvenile Court judgeship.

High officials who know of the recom mendation made by the Attorney General declared today they had full confidence that President Wilson will approve the choice of Mr. Latimer.
